

LEXAN™ MULTIWALL SHEET FOR HOSPITALITY AREAS

PROTECTIVE SCREENS AND SEPARATION WALL SOLUTIONS

Today, the world is facing unprecedented challenge with COVID-19. Amidst turbulent times and uncertainties, our health have become areas of critical concern across the globe. At SABIC, we are collaborating with our partners and customers to urgently develop innovative solutions to help address critical challenges around the world and developed solutions that keep us safe and in distance from each other.

High optical quality multiwall LEXAN™ (PC) THERMOCLEAR™ sheet products with highly specialized properties are often a top choice to your most demanding, long lasting applications. As companies are looking for protective materials such as separation and partition connecting to hospitality areas like hair salons, fitness centers, nail studios, pedicures, barber & tattoo shops and waiting area's, our LEXAN™ multiwall sheet portfolio can offer a solution connecting to that.

HIGH TRANSPARANCY

Provides a good balance of high light transmission (up to 87%) with certain level of privacy.

FLAME RETARDANT

Excellent fire performance
ASTM E84 Class A, D635 CC1.

EASY TO CLEAN AND DISINFECT

Withstands repeated cleaning with common hospital cleaning agents, IPA solution at 70% or liquid soap and water.

EASY TO INSTALL

Ease of handling and installation can be cut on site with common tools.

LIGHTWEIGHT

Outstanding light weight advantages against glass.

COST EFFICIENT

Designed to provide added value performance through potentially low systems costs.

BENEFITS	<ul style="list-style-type: none">- Lightweight- Cost efficient- High flexibility in design- Easy and fast installation- Provides privacy with still being a transparent material- Super UV resistance and impact Strength- Excellent behavior with fire (no flashover, very limited contribution, very difficult to ignite)
SOLUTIONS	<ul style="list-style-type: none">- Separation Walls- Partition Walls- Screen Barriers
AVAILABLE COLORS	Clear (112), Bronze (515055), Opal White (WH7A092X), Metallic Grey (GY6A744M), Blue (215102), Green (31923), Blue Green (21271)
GAUGES	Gauges: 6-10-16mm (higher gauges available on request)
STANDARD SIZES	1220 mm x 11800mm / 2100 mm x 11800mm

FIRE TEST PERFORMANCE

LEXAN™ THERMOCLEAR™ sheets have excellent fire performance against many national fire codes dependent on thickness and color; please check with the Local Sales office or Authorized Distributor for details

SOUND INSULATION

The sound insulation characteristics of a material are largely pre-determined by its stiffness, mass and physical construction. According to EN ISO 10140-2:2010, the maximum obtainable sound is 18dB at a gauge of 16mm.

CHEMICAL RESISTANCE

LEXAN™ solid and multiwall sheet products have a high resistance to most moderate chemicals. For a complete list of compatible cleaners, please contact your SABIC representative.

CLEANING & DISINFECT

Clean gently with common hospital cleaning agents, simply liquid soap and lukewarm water, using a soft, grid free cloth or sponge to loosen any dirt or grime.
