SABIC’S SPECIALTY FILM & SHEET BUSINESS OFFERS HIGH QUALITY, ENGINEERED THERMOPLASTIC SOLID AND MULTIWALL SHEET PRODUCTS FOR USE IN A WIDE VARIETY OF INDUSTRIES

SABIC’s Specialty Film and Sheet provides products for use across a wide variety of industries, ranging from building and construction, lamination and signs to transportation. Our LEXAN™ Polycarbonate sheet portfolio is backed by advanced technical support and application development services around the world, to meet our customers’ global specification needs with local supply.
SABIC’s Specialty Film and Sheet business is a leading supplier of high performance engineering sheet products, serving customers around the world in a broad spectrum of applications. Our virtually unbreakable, lightweight, fire resistant sheet product portfolio includes a wide variety of structures, ranging from solid and multiwall to corrugated sheet. The company has integrated extrusion processes, surface texturing, and coating technologies to provide value added solutions across a wide variety of industries.

SABIC offers mono- and multi-layer extrusion capabilities and in-line master sheeting both in-house and through its distribution and converter partners. The company also offers cut-to-size and 3D forming services. SABIC’s application development facilities provide lamination, cold- and hot line-bending, screen printing and architectural design services to customers.

At SABIC, we are dedicated to meeting our customers’ ever changing needs with our high performance LEXAN™ sheet portfolio. Our material solutions and services help our customers to reduce their system costs and create innovative designs and environmentally responsible materials.

SABIC’s ongoing investment in world-class technologies demonstrates our commitment to helping our customer’s technical requirements, application development needs and business goals.
MULTIWALL SHEET

Our multiwall, polycarbonate LEXAN™ THERMOCLEAR™ sheet portfolio consists of various different structures. The products can provide an outstanding balance of light weight, high impact strength, and stiffness. Its light weight can make this product less expensive to transport and facilitates easy and fast installation. In addition, it provides excellent thermal insulation, UV- and flame resistance and long-term light transmission. LEXAN THERMOCLEAR sheet is available in clear, opal white, solar control and with a variety of specialty finishes, such as the Easy Clean or Dripgard™ coatings, to allow sheets to be easily cleaned or prevent the formation of condensation. For availability of other colors, please contact SABIC.
GENERAL PURPOSE GRADES

SABIC has one of the broadest portfolios of general purpose multiwall sheets available in two and three wall structures. These products are available in various gauges, weights and a wide color range.

POTENTIAL APPLICATIONS:
- Commercial, residential and stadium roof glazing
- Carports
- Greenhouses
- Swimming pool covers
- Industrial roofing, roof-lights
- Signage

KEY BENEFITS:
- Light weight and high stiffness
- High impact strength
- Long-term light transmission
- Ease of installation
- Excellent thermal insulation and flame resistance
- Two side UV resistance, avoiding installation errors and improving cutting yields
- Broad portfolio of structures, coatings and colors
- Custom widths with closed edges

HIGH STIFFNESS GRADES

LEXAN™ Ultra-Stiff THERMOCLEAR™ sheet offers exceptional performance with capability to withstand wind and snow loading pressures of up to 7000 N/m². This exceptionally stiff sheet resists high wind and snow loads without the risk of cracking or breakage.

POTENTIAL APPLICATIONS:
- Stadium roofing
- Railway station roofing
- Shopping centers
- Other large architectural projects

KEY BENEFITS:
- High stiffness allowing for high wind and snow loads
- Light weight
- Available in solar control versions
- Excellent resistance against UV weathering
- High resistance against hail damage
HIGH INSULATION GRADES

The drive to reduce energy consumption to cut costs is one of the highest priorities in building and construction today. SABIC’s high insulation LEXAN™ polycarbonate (PC) sheet products offer many ways to increase energy efficiency. The multi-wall structure of LEXAN THERMOCLEAR™ sheet offers significant advantages when thermal insulation is a major consideration. The hollow form provides excellent insulation to avoid heat escape during wintertime and by using the solar control version, heat buildup during summertime can be restricted.

POTENTIAL APPLICATIONS:
• Verandas
• Office buildings
• Shopping centers
• Architectural projects

KEY BENEFITS:
• High thermal insulation
• Solar control version available
• Despite high thickness, low weight per m²
• 2 sides UV protection

Surface Treatment: LEXAN THERMOCLEAR sheets are standard supplied with a UV protective layer on both sides, with a 10 year limited warranty. Upon request, special surface treatments can be offered. “EasyClean” grade can offer improved cleaning. “Drippgard” grade may avoid formation of condensation droplets and “SUNX™” can be applied for even longer lasting UV resistance. Note: not all surface treatments are available for each product.

Colors: LEXAN THERMOCLEAR sheets are available in a wide range of colors including special Solar Control versions.
BUILDING SYSTEMS

The multiwall LEXAN™ sheet and building systems provide creative glazing solutions for industrial roofing and facades. Characterized by outstanding high impact resistance and excellent mechanical properties, each product in the portfolio is designed to provide added value performance through potentially low system costs and consistent high quality. Installation costs may be kept low as each product is designed using custom-made configurations for fast on-site assembly.
**POTENTIAL APPLICATIONS:**
- Facades
- Industrial roofing
- Roofing for offices and shopping centers

**KEY BENEFITS:**
- Smart connection systems reducing need for complex aluminum profiles
- Tailor-made low cost corrugated panels for easy connection with aluminum sandwich panels
- Seamless facade designs
- Excellent water tightness
- Light weight and cost efficient
- Creates high quality diffused light
- Easy and fast installation
- Excellent resistance to UV aging
- Custom colors available

Based on high-performance polycarbonate LEXAN™ resin, SABIC’s portfolio of solid sheet products helps customers develop lightweight, durable parts with tailor-made performance across a wide variety of industries. This virtually unbreakable, transparent or opal white color LEXAN polycarbonate sheet comes with UV protection on one or both sides and provides remarkable clarity - even after many years of intense sunlight and weather extremes.
POTENTIAL APPLICATIONS:
• Machine guards
• Roof and facade glazing
• Signage & LED light covers
• Sound walls
• Carports
• Transportation
• Electrical and electronics applications

KEY BENEFITS:
• High impact resistance
• Excellent light transmission
• High heat resistance
• Wide color range availability
• UV- and weathering resistance
• Light weight
• Large sheet sizes
• Grades with increased flame retardance

Virtually unbreakable, high optical quality LEXAN™ polycarbonate (PC) sheet materials from SABIC combine crystal clear transparency with value-added performance that is lightweight, features outstanding low ripple and distortion, and has an extremely low number of optical defects. These optical quality and coated sheets are supplied with industrial leading optical specifications.
OPTICAL QUALITY SHEET

Produced with class 10,000 clean room technology, LEXAN™ OQ sheet can offer one of the best optical quality materials for the glazing of forestry vehicles, high speed trains, high security facilities and bullet resistant glass-PC laminates for VIP, military and police vehicles. While providing easy maintenance, these lightweight, shatter proof products also offer excellent vision, long-term appearance, abrasion- and chemical-resistance.

**KEY BENEFITS:**
- Low distortion level
- Minimal number of point defects
- Available in custom colors
- Suitable for lamination with glass by PU interlayers
- High impact & excellent transparency
- Light weight (-50% vs. glass)

**POTENTIAL APPLICATIONS:**
- Base sheet for 3D vehicle glazing
- Base sheet for coated sheet
- Layers in (ballistic) safety laminates
- Visors & goggles

COATED SHEET

LEXAN™ MARGARD™ sheet offers optical clarity in combination with a unique abrasion and UV resistance, which can make it an excellent candidate for safety and security glazing to suit a wide range of applications. Available clear or bronze tinted, it can be used for both flat and curved glazing. Unique coatings offer high abrasion resistance, anti-fog behavior and increased resistance to UV weathering. Some product grades can be formed into (moderate) 3D shapes.

**KEY BENEFITS:**
- Abrasion resistance
- Resistance to UV weathering
- Available in custom colors
- Enhanced chemical resistance
- Formability for select coatings
- Optional anti-fogging

**POTENTIAL APPLICATIONS:**
- Specialty vehicle glazing
- Police vehicle glazing
- Motorcycle windshields
- Layers in (ballistic) safety laminate
- Appliance facias
- Train glazing
- Protective glazing
- Sound-walls
- Visors & goggles
- Machine guards

* Other gauges on request
1. OQ - Optical Quality: See page 13 for classifications
2. Taber Haze according ASTM D1044, CS-10F 100 cycles 500gr.
3. Weatherability according to ISO 11431A test, 800 hours - 1 year in central Europe (years of warranty)
4. Formability (maximum thinning in %)
ADVANCED FLAME RETARDANT SHEET

SABIC offers a range of products for aircraft- and railway-interior applications ranging from seating to wall cladding and lighting. SABIC’s opaque and translucent material portfolio not only offers lightweight and high impact resistant materials but also helps aircraft and railway interior manufacturers to meet tough flame, smoke, toxicity and heat release regulations, reduce overall system costs and enhance the aesthetics, safety and comfort of the cabin environment.

SURFACE TEXTURES

5 TEXTURE
Matte texture for low gloss surfaces

6 TEXTURE
Rougher texture for better texture retention after forming and matte surface

11N TEXTURE
Haircell texture for maximum abrasion resistance

18 TEXTURE
Very rough random texture
KEY BENEFITS:
- Compliance with key industry requirements
  - Flame resistance
  - Low smoke density
  - Low toxicity
  - Heat release
- Abrasion resistance by surface texture
- Impact resistance
- Dimensional stability
- Thermoformable

POTENTIAL APPLICATIONS:
- Seating
- Wall/ceiling cladding
- Galley applications
- Light diffusers
- Electrical cabinets
- Medical device housings
- Wall cladding applications for high level of sanitation

*Please contact your representative for up to date certification overview*
Specialty Film & Sheet business operates a worldwide network of sales, distribution, research, manufacturing and technical service facilities. With twelve ISO certified manufacturing sites across the USA, Canada, the Netherlands, Italy, Austria, China, Malaysia, India and Brazil, the company serves customers around the world in a broad spectrum of industries and applications. As a business unit of SABIC, Specialty Film & Sheet benefits from global cross-business resources and expertise. From its network of technical centers the company provides a variety of services. These include hands-on engineering and technical support that extends from selecting the right material to characterization of mechanical, thermal, UV/heat aging data, advanced light measurements and optical modeling to part design and installation guidelines. The company also offers a local team, complete supply chain, and distribution organization to ensure a reliable source of materials to its customers wherever their manufacturing site is located.

SABIC ranks among the world’s top petrochemical companies, and is a global market leader in the production of polyethylene, polypropylene, advanced thermoplastics, glycols, methanol and fertilizers. SABIC operates in more than 45 countries across the world with 40,000 employees worldwide. It has significant research resources with 18 dedicated technology and innovation facilities in Saudi Arabia, the USA, the Netherlands, Spain, India and China.

SABIC IS COMMITTED TO ITS CUSTOMERS AROUND THE WORLD WITH A PORTFOLIO OF SPECIALTY FILM & SHEET MATERIALS, APPLICATION SUPPORT AND WORLDWIDE SERVICES.
