

# BRILLIANT+ UNBREAKABLE

## LEXAN™ OQ6DA FILMS FOR SMARTPHONE & TABLET TOUCHSCREENS

SABIC's new LEXAN OQ6DA films are both or one side hard coated polycarbonate sheeted films offering excellent abrasion resistance for scratching, optical clarity and excellent impact resistance. LEXAN OQ6DAW film grade in the portfolio offers low warpage and weathering. These virtually unbreakable products from SABIC are excellent candidates for flat touchscreens of smartphones and tablets, lenses for portable electronics, overlays and for keypads.
