## UV RESISTANCE

LEXAN HP05Wxx film utilizes a proprietary coating technology developed by SABIC. This special coating resists yellowing and hazing – no matter how bright the sun. With a yellowness index of less than 3.0 at 1000 hours of QUV testing and less than 2.0 at 1000 hours of Xenon Arc testing. LEXAN HP05Wxx film is a natural choice for demanding outdoor applications.

## CHEMICAL AND ABRASION RESISTANCE

Along with very good UV resistance, LEXAN HP05Wxx film also has good chemical and abrasion resistance.
