

LEXAN™ MULTIWALL SHEET FOR HEALTH CARE FACILITIES APPLICATIONS

INTERIOR WALL CLADDING FOR HOSPITALS AND PUBLIC FACILITIES

Installation of partition walls to expand ICU capacity in local hospital in Canada

Providing a protective separation wall solution for covid-19 patients in hospitals, temporary clinics and long term care facilities.

SABIC's Functional Forms business has been working to bring its portfolio of leading edge materials to bear in glazing applications for over 40 years. Virtually unbreakable, high optical quality solid and multiwall LEXAN™ (PC) sheet products with highly specialized properties are often a top choice for answering the specific needs and [providing protection](#) to your most demanding applications. As companies are looking for protective materials connecting to [hospitals and other medical facilities](#), such as [separation walls](#), [partition walls](#) and [screen barriers](#), our multiwall portfolio can offer a solution connecting to that.

HIGH IMPACT STRENGTH
Virtually unbreakable

EASY TO INSTALL
Ease of handling and installation can be cut on site with common tools

EASY TO CLEAN AND DISINFECT
Withstands repeated cleaning with common hospital cleaning agents

LIGHTWEIGHT
Outstanding light weight advantages against glass

FLAME RETARDANT
Excellent fire performance

COST EFFICIENT
Designed to provide added value performance through potentially low systems costs

STANDARD SIZES	1220 mm x 11800mm / 2100 mm x 11800mm

FIRE TEST PERFORMANCE

LEXAN™ THERMOCLEAR™ sheets have excellent fire performance against many national fire codes dependent on thickness and color; please check with the Local Sales office or Authorized Distributor for details

SOUND INSULATION

The sound insulation characteristics of a material are largely pre-determined by its stiffness, mass and physical construction. According to EN ISO 10140-2:2010, the maximum obtainable sound is 18dB at a gauge of 16mm.

CHEMICAL RESISTANCE

LEXAN™ solid and multiwall sheet products have a high resistance to most moderate chemicals. For a complete list of compatible cleaners, please contact your SABIC representative.

CLEANING & DISINFECT

Clean gently with common hospital cleaning agents, simply liquid soap and lukewarm water, using a soft, grid free cloth or sponge to loosen any dirt or grime.
