

LEXAN™ MULTIWALL SHEET FOR HOSPITALITY AREAS

PROTECTIVE SCREENS AND SEPARATION WALL SOLUTIONS

Today, the world is facing unprecedented challenge with COVID-19. Amidst turbulent times and uncertainties, our health have become areas of critical concern across the globe. At SABIC, we are collaborating with our partners and customers to urgently develop innovative solutions to help address critical challenges around the world and developed solutions that keep us safe and in distance from each other.

High optical quality multiwall LEXAN™ (PC) THERMOCLEAR sheet products with highly specialized properties are often a top choice to your most demanding, long lasting applications. As companies are looking for protective materials such as separation and partition connecting to hospitality areas like hair salons, fitness centers, nail studios, pedicures, barber & tattoo shops and waiting area's, our LEXAN™ multiwall sheet portfolio can offer a solution connecting to that.

HIGH TRANSPARANCY

Provides a good balance of high light transmission (up to 87%) with certain level of privacy.

EASY TO INSTALL

Ease of handling and installation can be cut on site with common tools

FLAME RETARDANT

Excellent fire performance
ASTM E84 Class A, D635 CC1

LIGHTWEIGHT

Outstanding light weight advantages against glass

EASY TO CLEAN AND DISINFECT

Withstands repeated cleaning with common hospital cleaning agents, IPA solution at 70% or liquid soap and water

COST EFFICIENT

Designed to provide added value performance through potentially low systems costs
